JASPER  RAATS

THE JOURNEY

Award-winning winemaker, *Jasper Raats*, maverick range is where his most personal winemaking vision comes to life. Built entirely on the principle that great wine begins with a specific sense of place. Every wine in the range originates from *organically farmed vineyards* and expresses itself through the artwork of the label.

Jasper is unafraid to push boundaries. His process is distinctive in character, with wine that is terroir driven and epitomize the *microclimate of the individual vineyard* from where they originate. He selects small pockets of exceptional vineyards across the famed Helderberg (the coolest sub-region of Stellenbosch), then applies techniques and produces styles that are sometimes atypical to the cultivar, creating *poetic wines with old-world elegance*.
