

OUR PHILOSOPHY

At Longridge, we see the farm as a living organism.

The soil, vines, animals, and people all form part of one balanced whole. Instead of forcing nature, we follow it – guided by the rhythms of the earth, the seasons, and the cycles of the moon and stars.

Soils alive with energy, vines in balance, fruit with vibrancy and clarity.

THE RHYTHM OF THE SEASONS

WINTER – Rest & Renewal

The vines sleep while we prepare the soil.
Horn Manure (Prep 500) is buried in the earth to enrich microbial life.

SPRING – Awakening

Budburst begins. Natural teas and sprays protect the vines. Early canopy work is guided by the lunar calendar.

SUMMER – Balance & Vitality

Flowers turn to fruit. Horn Silica (Prep 501) strengthens leaves and helps ripening. Horsetail tea (508) maintains balance.

AUTUMN – Harvest & Celebration

Fruit is picked on “fruit days” when energy is at its peak. Compost enriched with herbs (Preps 502–507) returns nutrients to the soil.

VINEYARD PHILOSOPHY

Biodiversity

Guinea fowl, Nguni cattle, bees, and cover crops form a self-sustaining ecosystem.

No Chemicals

No herbicides, pesticides, or synthetic fertilizers.

The Preparations

Horn manure (500) and horn silica (501) build soil vitality and ripening balance; herbal compost preps (502–507) guide decomposition; horsetail tea (508) balances moisture and disease.

The Calendar

Work is timed to root, leaf, flower, and fruit days, aligning farming with natural cycles.

PREPARATIONS

500 – Horn Manure:

Enriches soil life and root growth.

501 – Horn Silica:

Improves photosynthesis and fruit ripeness.

502–507 – Compost Preps:

Herbal remedies (yarrow, chamomile, nettle, oak bark, dandelion, valerian) guiding decomposition.

508 – Horsetail Tea:

Balances moisture and disease pressure.
These are like natural medicines for the vineyard – tiny doses with profound effects.

WINEMAKING PHILOSOPHY

Fermentation

Only indigenous yeasts, no added enzymes.

Minimal Intervention

No fining or filtration; very low sulphur.

Maturation

Wines age in French & Russian oak.

Style

Wines of elegance, purity, texture, and endurance – revealing the true voice of Stellenbosch's ridge.

WHY IT MATTERS

For us, biodynamics is not a trend. It is our covenant with the land and with future generations. The result is wines that are more vibrant, balanced, and expressive of place – wines that carry both wisdom and vitality.

ANNO 1841

LONGRIDGE

WYNLANDGOED • WINE ESTATE

CABERNET SAUVIGNON 2020

TASTING NOTES

Red berries and cherry, bay leave and oak on the nose. Red berries: strawberry, dried cranberry, oaky with fine tannins and a juicy mid palate that continues to a long lingering finish.

TERROIR

Rooted in the oldest viticulture soil in the world, it is made up of decomposed granite on the lower slopes of the Helderberg Mountain. This vineyard enjoyed the refreshingly cool breezes from False Bay (Atlantic Ocean) during the day and cool air at night flowing down the mountain, resulting in even ripening of the berries and good natural acidity. The macro climate is maritime, with cold wet winters and sunny warm summers, with the Helderberg Ward being the coolest in the Stellenbosch region.

VITICULTURE

The vineyards are meticulously cared for by hand and the crop is reduced to ensure maximum quality. Organic and biodynamic practices are employed, which includes not using any pesticides, herbicides or chemical spray. The grapes were handpicked in the early morning in lug boxes to ensure that the grapes arrived in perfect condition in the cellar.

VINIFICATION

In the winery, the grapes were sorted twice – firstly as whole bunches and then as berries to ensure that only the best grapes reached the fermentation tank. Extraction happens by way of remontage, carefully monitored to prevent over-extraction. This wine was matured in French oak barrels during primary and secondary fermentation for 22-24 months and is ready for drinking now, but will continue to develop over the next eight years. We recommend decanting the wine prior to service.

Origin Stellenbosch | Winemaker Jasper Raats & Hendrien de Munck
Alcohol 14,11% | Residual Sugar 2,1g/l | Total Acidity 5,8g/l | pH 3,61

Wisdom in Wine. The Ridge that Endures.
