

THE JOURNEY

Longridge is where nature leads and winemaking follows. Situated on the cool slopes of the Helderberg Mountain in Stellenbosch just 3 miles from the Atlantic Ocean, the estate is internationally recognized for its *organic and biodynamic philosophy*, producing naturally crafted wines that express the *purity, balance and character* of one of South Africa's finest wine-growing regions.

In the cellar, the approach is guided by restraint and Cellar Master Jasper Raat, allowing the vineyards and vintage to define the character of each wine. The result is a collection of terroir-driven wines that combine structure and authenticity with global fine-wine relevance, crafting *ageable wines with freshness*.
