vineyards

THE JOURNEY

Nothing comes easily on Olifantsberg Mountain. As the only wine estate on its rugged slopes, vines battle relentless winds, rocky shale and schist soils, and a rugged climate. Passionately led by critically acclaimed *viticulturist and winemaker Elizma Visser with husband Ferdi Visser*, this untamed energy is transformed into sought-after wines that capture the very *soul of the mountain*.

Olifantsberg, 'Elephant Mountain', is where ancient elephant used to roam, giving inspiration for their Beneath our Feet range. Climate-change adaptation is the focus, using *high-density Échalas* vine systems to give each vine its own micro-climate. Elizma works with a range of Mediterranean varieties (Grenache Blanc, Grenache Noir, Carignan, Syrah, Roussanne) alongside South African classics.
