

SINCE  1847
7 GENERATIONS

OPSTAL

THE JOURNEY

For over seven generations since 1847, the *Louw family* has farmed the Slanghoek Valley with a leading respect for its people and natural environment. Opstal estate stands among South Africa's revered Chenin Blanc producers embracing a philosophy of taking no shortcuts with innovation - '*Legacy in Motion*'.

Cellar Master Attie Louw, his brother Zak, and greater team is bolstered by the farm representing three generations. This stability creates impactful change through knowledge, shaping every vintage. Opstal has dived into regenerative farming with a *herd of Dexter cattle* and an active *Cape Nature partnership* to preserve the surrounding fynbos, and the estate has earned a growing reputation with many global accolades.
