

THE JOURNEY

"All About Individuality" defines Radford Dale. Balancing a pursuit of innovation with a deep respect for tradition, they create expressive wines rooted in their *organic Elgin estate* and *Stellenbosch*. Elgin is SA's coolest wine region. Co-founded by *Alex Dale* in 1998, their *holistic ethos* embraces nature, people and place - and they are never afraid to do things differently.

People are at the core with a strong female team, international expertise and impactful upliftment in the communities they work in. *Winemaker Petroné Thomas* leads a talented cellar team, working with a light touch and a holistic philosophy. Organic farming, minimal-intervention winemaking and a willingness to challenge convention result in wines defined by *freshness, elegance and individuality*.
